The diagram illustrates the hierarchical structure of a 16x16 grid. It is composed of 16x16 small squares. These are grouped into 4x4 blocks of 16 squares each. These 4x4 blocks are further grouped into 2x2 blocks of 64 squares each. Finally, the entire grid is composed of 4 large 8x8 blocks. The diagram uses a color-coding scheme: the top two 8x8 blocks are light blue, the bottom two are light orange, and the four 4x4 blocks within each 8x8 block are light green.
